

2025 Tim Adams Pinot Gris

In one of the most unique and picturesque wine regions of the world Alsace (France), Riesling and Pinot Gris grow side by side in the best sites down the hills of the Vosges Mountains. After visiting the region in the late '90s, it seemed logical for Tim that if Clare Valley had the conditions to produce world-class Rieslings, it could also deliver quality Pinot Gris and the first vines were planted in our Ladera vineyard. Three decades later we are proudly making one of the most popular white wines in Australia.

Voted 'Best in Australia' at the Dan Murphy's Best in Glass Wine Award.

The growing season leading to vintage 2025 was one of the most challenging on record with an early budburst followed by frost, drought and consistent hot weather. Vintage started late in January with Ladera Pinot Gris being harvested two weeks earlier than in 2024. Despite the adverse conditions, good vineyard practices and careful winemaking decisions have certainly paid off.

Corella pear, stone fruits, honeydew melon and subtle lychee are the core of the 2025 vintage, all backed up by a refreshing acidity that gives the wine a crisp crunchy fruit character. True to our style and undoubtedly another classic release of our Pinot Gris. A great food-wine; enjoy while it is young and vibrant, with Asian cuisine, seafood and salads.

Variety

Pinot Gris

Vineyards

Blenheim	Alistair Sandow
Ladera	Tim Adams & Pam Goldsack
Sheoaks	The Fechner Family
Sheoaks West	Tim Adams & Pam Goldsack
Skilly Ridge	Tim Adams & Pam Goldsack
Rogers	Tim Adams & Pam Goldsack

Winemaking

Harvested in the cool of the early morning, Pinot Gris from optimum vineyard sites throughout the Clare Valley was crushed, chilled to 5 degrees, pressed and the pressings separated. A cool and steady fermentation for two weeks has produced maximum lifted varietal fruit expression. Individual vineyard parcels were filtered before carefully blending. The wine has been cold and protein stabilised to industry standards, filtered and bottled under screw cap to encapsulate the flavours and ensure freshness.

Alc: 12.5% v/v
