

AN INTRODUCTION TO DAVE MULLEN WINES

Dave Mullen Wines is well established as one of the leading wine distribution companies in Western Australia. Our goals have changed little in over 33 years.

We aim to work with quality wine producers, Australian and International, with a strong on premise focus.

Our portfolio is quite diverse.

Our domestic portfolio covers most regions within Australia and includes well established names [e.g. Tim Adams, Bowen Estate, Charles Melton] along with exciting new producers such as Wayfinder [Margaret River] and Small Wonder [Tasmania].

Wayfinder wines along with their second label Swell Season (Wilyabrup, Margaret River) and their Tamar Valley, Tasmania winery Small Woner is the most exciting new venture in the wine industry in the last 25 years.

Internationally our focus is on Italy and includes producers from most regions. The Italian portfolio has been developed since 1998 and today we are the biggest direct importers of Italian wines into WA.

We also have an expanding selection of French producers, four exciting winemakers from Austria and a small selection of New Zealand labels.

Dave Mullen Wines has received plenty of recognition over the past few years, including:

AHA 2025: Best Wine Supplier

AHA 2023: Best Wine Supplier

Australian Enterprise Awards 2024: Best Premium Wine Portfolio

We take pride in the quality of the wines represented along with the quality of our delivery service, we believe this is the best in WA.

Our experienced sales team has been recognised as the best in the wine industry in WA with over 80 Years in the industry between them.

We would appreciate the opportunity to meet and discuss in more detail the range of wines distributed.
